| Test Name | In Range | Out Of Range | Reference Range | Lab |
|--|----------|--------------|-----------------|-----|
| CARDIO IQ(R) VITAMIN D, 25 HYDROXY | | | | |
| VITAMIN D, 25-OH, TOTAL (Note) | 85 | | 30-100 ng/mL | |
| <p>Vitamin D, 25-Hydroxy reports concentrations of two common forms, 25-OHD2 and 25-OHD3. 25-OHD3 indicates both endogenous production and supplementation. 25-OHD2 is an indicator of exogenous sources such as diet or supplementation. Therapy is based on measurement of Total 25-OHD, with levels <20 ng/mL indicative of Vitamin D deficiency, while levels between 20 ng/mL and 30 ng/mL suggest insufficiency. Optimal levels are > or = 30 ng/mL.</p> <p>For additional information, please refer to http://education.QuestDiagnostics.com/faq/FAQ199 (This link is being provided for information/educational purposes only.)</p> | | | | |
| VITAMIN D, 25-OH, D3 | 85 | | ng/mL | |
| Reference range: Not established | | | | |
| VITAMIN D, 25-OH, D2 (Note) | <4.0 | | ng/mL | |
| Reference range: Not established | | | | |
| <p>This test was developed and its analytical performance characteristics have been determined by medfusion. It has not been cleared or approved by the US Food and Drug Administration. This assay has been validated pursuant to the CLIA regulation and is used for Clinical purposes.</p> | | | | |
